

Last week, the club were informed by our software supplier, Club Systems, that in January (currently scheduled for 12th January) they will be launching a brand new HowDidiDo platform.

The new HowDidiDo will combine all the great features within the ClubV1 Members Hub and the current HowDidiDo into one brand new platform.

The club were invited to a launch webinar and have since been sent a recording and we are pleased to say that the new app looks fantastic and is certainly an advancement on the current platform.

What this means for members is that, once launched, you will need to re-register for the new HowDidiDo, however the registration process has been significantly simplified. All you will need to do is input your email address that is linked to your ClubV1 record and the system will send you a one-time passcode to your email address. You will input this into HowDidiDo and it will then link you to our club as well as any other clubs that you may be a member of that use ClubV1. You will only need to do this once, but you may occasionally be sent another one-time passcode.

HowDidiDo can be accessed via [www.howdido.com](http://www.howdido.com) or via a downloadable app from your app store.

Access via the website will remain completely free of charge, however Club Systems have confirmed that the app will now have a charge associated.

Club Systems have stated that members will either need to pay £2.99 per year for the standard HowDidiDo app ,which will contain adverts similar to the current version, or pay £9.99 per year for the HowDidiDo app with no 3rd party adverts at all.

More information will follow over the next few weeks, so please watch this space.
